

# TalkTablet

TalkTablet is the **ONLY** fully-featured AAC speech app that runs on **iOS (Apple), Android and Kindle** devices. Includes **FREE** wireless button and page sharing too!

"TalkTablet has been a wonderful addition to our augmentative communication program at No Limits Academy. The capability to share files using iPads and Androids enables us to share files in all our classes allowing our kids the ability to express themselves with teachers and peers throughout the day for enjoyment, to meet their needs, and to participate in classroom activities. Gus Inc has been an enormous help in making this happen." Christine Carey MA, CCC-SLP, Ability Plus Therapy & No Limits Academy
